District, Indiana.

Dr. Gro. W. Phillips. Cincinnati, Ohio;—Hawing used several small bettles of your "Cough Syrup, personally and in my family, and having seen its effects on others, in numerous instances of severe cold and coughs, I most cheerfully recomment it as an infallible remedy in all such cases. If this Syrup were in general use, I confidently believe a large majority of the colds, accompanied by coughs, that now terminate in Consumption, would be effectually arrested in fact, I can see no necessity for any, who can obtain this remedy, being thus afflicted.

Bespectfully yours,

J. W. CMAPMAN.

THE PRESS.

CINCINNATI, WEDNESDAY, APRIL 26.

From the Dublin University Magneine. ADVICES Jeen Clement

We must feel ere we can pity,
We must long before we pray,
We must know the need of comfort
Ere we cheer another a way.

Art thou then the only mourner? Throbe no besting heart but thine? Does the earth's green surface never Hide a deed and wealthy mine?

Knew ye not what wondrous structures Grow beneath the rolling seas? Coral reefs, in hidden natures, Rise as allently as these.

May be that thy strength of purpose Might uplift some sinking heart, And the ray, to thee returning, A refracted light impart. For 'tis strange we should have power Off to give another peace, While we vainly bid the anguish Of our own vax'd spirit cease,

Railway Matters.

We hope to keep our readers posted in these natters, and if we can keep up with the times without the aid of a pony, will do so. As the Hibernian matron said, "Things are so unequally divided that the greatest donkey is victor in some races,"

Time-Tables.

The new time-tables that were to have gone nto effect, have gone. All the trains have been on time, except those that were behind, during the last few days.

New Passenger-Car.

We have examined a new passenger-car, and find that it will sent comfortably sixty-four passengers, and will carry, with safety, seventy passengers-by having six of them stand up. It is composed principally of wood and iron, and has sents stuffed with some soft material. The management are entitled to great praise for the public spirit displayed (Railroad men will see the importance of advertising with us) in this enterprise.

Important to Travelers.

Passengers going East will save time by taking one of the Eastern lines. Should either of those lines refuse to advertise with us, we will take the earliest opportunity of advising the Eastern travel to go some other way (Railroad men will see the importance of advertising with us), as we are opposed to monoply.

Mesopotamian Railway. This important link in the great chain of railways is at last in a fair way of completion. Their bonds were thrown into the market and sold, for what price we did not learn.

Among the guests of the Dumas House, yesterday, we notice Jo. Butcher, formerly Porter on the L. M. R. R. Jo. is on his way to the O. & M. R. R., to take the responsible position of Train-boy. Major Johnson, formerly Porter on the C., C. & C., is on his old train again. Conductor Goit was at the Post-office yesterday. Conductor Skeesic stood treat at Denahue's yesterday; the rest merely smiled. A Board of Directors and President and Superintendent were elected for all the principal railroads in the country within the past year. They are elected by the stockholders generally. The most of the roads - e the T-rail in preference to any other. It is composed of iron.

INHUMAN CONDUCT .- On Friday last James Daley, a deck-hand employed upon the steamer Victoria, appeared before 'Squire Horne and made an affidavit to the effect that George Miller, a mate on the Victoria, had inhumanly treated him on the passage up. He said in his statement that a passenger had lost some money; that Miller suspected him (Daley) of stealing it, and to make him confess, hung him up by the neck until he was nearly sufficiented. Not effecting his purpose in that manner, he caused Daley's hand to be placed in a vice and queezed almost to a jelly. Miller is still at large. - Memphis Avalanche.

A FAMILY PUZZLE.-The family of Mrs. Lucinda Burr, of North Wilbraham, according to the Palmer Journal, consists of one father three mothers, two grandmothers, one great grandmother, two widows, three children, one husband, one wife, two daughters, one granddaughter, one son, one grandson, one great grandson, one mother-in-law and one son-inlaw; yet the family numbers but five persons who all live under the same roof.

A German sailor, named Behreus, fell in love with Miss Sophia Miller, of New York. His attentions to the lady caused him to lose a voyage for which he had shipped. Returning to his fair one to tell of his disappointment, she received him with marked coldness, which the spirited tar could not brook. He shot himself dead on Friday morning last.

For some time past a German woman, named Gyles, living in New York, suffered so grievously from ulcers that she became de-mented, and for two weeks had not eaten any food. On Friday morning she obtained a razor from her grand-daughter, under pretense of cutting her corns, with which she cut her throat, causing instant death.

Arrangements have been completed for the establishment of a line of steamships, from 1,200 to 1,600 tuns burden, to ply between New York and Washington City. They are designed in part to accommodate the transit of goods between New York and the great South-west.

At the annual meeting of the London Literary Fund, Mr. Charles Dickens communicated oble offer of a friend of literature to give £10,000 in money and 17,000 volumes books to the corporation, on condition that certain reforms, calculated to increase the utility of the fund, were adopted.

During the past year ending March 1st, there were 7,610 persons relieved at the office of the superintendent of the Poor for the Eastern District of New York city, Number of families relieved, 1,923. Amount expended, \$6,933 31. About eight hundred tuns of coal wore distributed. were distributed.

The Sisters of Charity have opened a new school for destitute children in San Francisco. The Herald says that in the school all nationalities are represented. Children of French, Spanish, South American, Mexican, Irish and American parentage, are among the pupils. The Needlewoman's Friend Society, of Boston

has paid for women's work during the past year the sum of \$3,000. One hundred women have been employed. The whole expenses of the Society are but \$1,000 a year. Mrs. A. L. Wales is elected President for 1859.

The anniversary of the birthday of Thomas Jefferson was celebrated in Boston, on the evening of April 13, by a banquet at Parker's. The Hon. George Boutwell presided, and made the opening speech of the evening. Sixty-one carpenters have been recently dis

charged at the Brooklyn Navy Yard; fifty joiners followed on Friday, and the "anvil chorus" of a whole batch of blacksmiths ceased yesterday, (Monday.) The deficit in the accounts of Ex-State Treas-

urer McMeans, of California, is \$108,000. Proceedings have been commenced against his The dinmond jewelry, supposed to have been stolen from the Allentown Railroad office, in New York, some time since, have been found;

they were in the safe all the time! Mr. B. Gratz Brown has retired from the press, his connection with the Missouri Dem-ocrat, published in St. Louis, having ceased on Monday, the 11th inst. River Intelligence.

The Weather, since our last, has been clear and pleasant. The River fell about eighteen inches dur-ing the last twenty-four hours, and is still falling steadily. Business on the Leves was protty brisk Boats for St. Louis had as much as they could do, and there is a fair trade for New Orleans. We have no change to note in up-river freights. With fair offerings to all points, we quote, vis.:

Offerings to all points, we quote, viz.:

per bri.

New Onleans.—Whisky, 45c.; Pork, 35c.; Flour, 20c.; Bacon, etc., 15@20c. per hundred he; Horses, \$10 per bead. The arrivals since our last include the Commerce and Henry Graff, from St. Louis, with good trips, and the Ohio Belle, from New Orleans, with a full

load. The Shenange, Clara Dean and Colona came in from Pittsburg with good loads. The Parkersburg came in from Parkersburg, and the A. W. Quarrier, from Kanawha, with pretty good trips. The Martha Putnam and Mariner cleared for St. Louis, and the Colona for Kansas Biver. The Jacob Traber and Commerce left for Pittaburg, and the Liberty for Wheeling, fully loaded. The Shenango left for Nashville, loaded to the guards. The Grape

shot left for Arkansas River, with a light trip. She has engagements below. GLEANINGS FROM OUR EXCHANGES.

PITTRBURO.—The Dispatch of yesterday says:

The weather yesterday was cloudy and cool, with indications of more rain. The river continues to recede steadily at the rate of about twelve inches per day. On the wharf business was rather more lively than for some days previous, principally, however, in freight discharging. Offerings are limited to all points, and tunnage superabundant. Rates, especially to St. Louis, are far below remunerating points, there is now an upward tendency, asveral boats refusing freight at the prices. A movement is also no foot among the owners and Captains to raise them, if possible, to a living point. The arrivals yesterday were, the Moderator, from Dubuque, and the Dacetah, from Kookuk. The Cheviot came in from Wheeling and cleared again; and the Neptune, filled with railroad iron, got away to Nashville.

Louisville.—We clip the fellowing from the PITTERURO.—The Dispatch of yesterday says LOUISVILLE.-We clip the fellowing from the

Courier of yesterday:

The river, as we anticipated, was falling yesterday, with over twelve feet water on the Falis last evening. During the previous twenty-four hours the river had fallen six or seven inches, with clear and fresty weather in the morning, and cloudy, with a light sprinkle of rain in the evening.

At St. Louis the Mississippi was steadily receding, and the upper river at Lake Pepin was ice bound, and the ground around in good sleighing order.

The Robert J. Ward, from New Orleans, brings the latest advices in regard to the flood in the Lower Mississippi. Her officers report the river slowly swelling at New Orleans, the river and levee being nearly on a level, and at a stand at Natchez; above that it was receding a little, being fully ten inches higher at Vicksburg than hast season. From Morehead's, or Johnson's ent-off, to Vicksburg, the river was entirely over the banks on the Mississippi side—all the plantations under, with several fearful crevases. Great fears were entertained that the river would cut through into Lake Washington.

The officers of the Ward report the river failing from Lake Providence all the way to Cairo, and all the Southern tributaries low and falling, including Arkansas, White, Red and Onachita.

The numerous breaks in the levees, including Col. White's above Vicksburg, at Island One Hundred, Cammocks, etc., have all been heretofore neted in the Courier. What little was left of the once flourishing town of Grand Gulf was entirely engulphed—swallowed up—by the waters of the Mississippi. Courier of yesterday :
